

Expert workshop and public seminar

'Data on ethnicity in social survey research'

University of Stirling, 28th January 2010

This one day event will begin with presentations on the DAMES Node's research resource 'GEMDE', a portal system which is designed to enhance access to data resources relevant to the analysis of ethnicity in social survey research (www.dames.org.uk/gemde). Later in the afternoon, it will feature two public seminar papers on the same general theme.

Thursday 28 January 2010
